

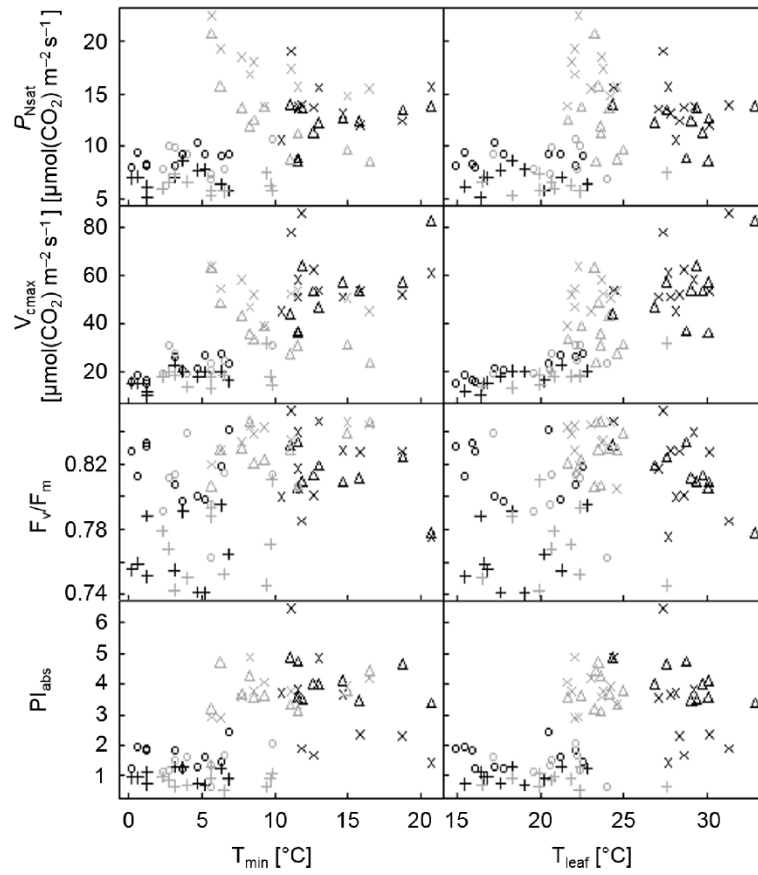

Fig. 1S. Parameters P_{Nsat} , V_{cmax} , F_v/F_m and PI_{abs} in relationship to minimum temperature of the night before the measurements on the left side of the panel and to leaf temperatures as measured during gas-exchange measurements in the right side. Indicated are the mean values per species, gradient and elevational band. Circles display *A. foetida*, triangles *K. dipsacifolia*, crosses represent *M. perennis* and squares *T. pratense*. Black symbols indicate Kramer gradient and dark grey symbols Kreuzeck.
